## About Dataset

### Context

This dataset is being used for classifying the use of land in geospatial images. The end goal for the classification is that the top 2 uses of land in an image are given as output to the user.

### Content

This dataset contains images belonging to the EuroSat dataset. There are 2 folders, namely,

- EuroSAT → Contains RGB images collected from the Sentinel Dataset.
- EuroSATallBands → Contains .tif files which have all the bands of the spectrum as collected from the Sentinel-2 satellite.
